

LIME LIGHT

by PichaEats

Whats
Limelight
doing?

Unlocking creativity and building futures
for underrepresented youth through the
Art ————— of ————— Mixology.

Why?

Many youth within the stateless and refugee communities finish school with very limited options, often missing out on safe, creative spaces to grow, learn, and have little hope for a meaningful future.

Who we
work with
& how?

We train marginalised youth in non-alcoholic mixology, hospitality, and personal growth. We work towards building confidence, skills, and self-worth.

Participants learn F&B skills, presentation, and personal growth. This is done in a fun and professional space where the participants can learn, express themselves, and explore creative avenues that form income generating opportunities. It also creates a supportive community and a sense of belonging.

Who is running this?

Our team brings over a decade of experience working with marginalised communities, particularly through PichaEats, where we've shown dedication and commitment in working with stateless and refugee families.
